Verdict for Dr. Pierce

AGAINST THE

Ladies' Home Journal.

Sending truth after a lie. It is an old maxim that "a lie will travel seven leagues while truth is getting its boots on," and no doubt hundreds of thousands of good people read the unwarranted and malicious attack upon Dr. R. V. Pierce and his "Favorite Prescription" published in the May (1904) number of the Ladies' Home Journal, with its great black display headings, who never saw the humble, groveling retraction, with its inconspicuous heading, published two months later. It was boldly charged in the slanderous and libelous article that Dr. Pierce's Favorite Prescription, for the cure of woman's weaknesses and ailments, contained alcohol and other harmful ingredients. Dr. Pierce promptly brought suit against the publishers of the Ladies' Home Journal, for $200,000.00 damages.

Dr. Pierce alleged that Mr. Bok, the editor, maliciously published the article containing such false and defamatory matter with the intent of injuring his business; furthermore, that no alcohol, or other injurious, or habit-forming, drugs are, or ever were, contained in his "Favorite Prescription"; that said medicine is made from native medicinal roots and contains no harmful ingredients whatever; and that Mr. Bok's malicious statements were wholly and absolutely false.

In the retraction printed by said Journal they were forced to acknowledge that they had obtained analyses of "Favorite Prescription," from eminent chemists, all of whom certified that it did not contain alcohol or any of the alleged harmful drugs.

These facts were also proven in the trial of the action in the Supreme Court. But the business of Dr. Pierce was greatly injured by the publication of the libelous article with its great display headings, while hundreds of thousands who read the wickedly defamatory article never saw the humble groveling retraction, set in small type and made as inconspicuous as possible. The matter was, however brought before a jury in the Supreme Court of New York State which promptly rendered a verdict in the Doctor's favor. Thus his traducers came to grief and their base slanders were refuted.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root; and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

Senators Tillman and Dolliver.

Jackson, Mich., is discussing with bated breath the dire possibility of a duel between United States Senators Dolliver and Tillman. Tillman demands gore. Dolliver is not willing to concede any to the South Carolinian. Dolliver ridicules Tillman. Tillman is quoted as denouncing Dolliver as a coward and demanding a vindication of his honor.

Senator Tillman made one of his characteristic anti-negro speeches at Jackson on Thursday before a large and appreciative audience. At the close he requested all who coincided with his views to stand up. Pretty much everybody stood. Dolliver got into town yesterday and immediately began to abuse Tillman. He ridiculed every statement the southern Senator made. Tillman, who is the guest of acquaintances, hurried into town and inserted a notice in the evening paper, in which he stated he had been grossly insulted; that in the South the way such things are adjusted is by the duel route. Dolliver read the story in the newspaper and met Tillman in the lobby of the Otsego Hotel. According to bystanders, a stormy interview was the result, and serious trouble is declared to have been imminent. Then, according to the story, Dolliver said he was not fighting duels, and Tillman branded him as a coward.

Dolliver left town yesterday evening. He was followed to the station by a mob of several hundred, and the police had difficulty in getting him through the crowd in the train sheds.

"Men of the type of Senator Tillman, who openly boast of violating the law, who are instrumental in the murder of hundreds of blacks, and who preach anarchy, should be behind prison bars," said Senator John P. Dolliver, of Iowa, in addressing the Chautauqua Assembly at Jackson, Mich. He did not attempt to reply to Senator Tillman's speech the previous day, but simply voiced his opinion of the race animus expressed by Tillman.

A later dispatch from Jackson says the story to the effect that Senator Tillman challenged Senator Dolliver is a pure fabrication.

Wise Counsel from the South.

"I want to give some valuable advice to those who suffer with lame back and kidney trouble," says J. K. Blankenship, of Beck, Tenn. "I have proved to an absolute certainty that Electric Bitters will positively cure this distressing condition. The first bottle gave me great relief and after taking a few more bottles I was completely cured; so completely that it becomes a pleasure to recommend this great remedy." Sold under guarantee at E. S. Lerdbeater & Son's drug store.

Attacked the English.

The steamship Baltic, of the White Star, line arrived at New York yesterday with a number of passengers aboard who were disgusted at the unseemly conduct of an American last Thursday.

Alva Adams, formerly governor of Colorado, who was defeated at the last election, had stirred the indignation of all aboard the liner.

With characteristic patriotism, the Americans on board the Baltic decided soon after sailing from the other side that they must celebrate Independence Day. The plans for the celebration were given out and the English passengers seemed to fall in with the idea in a mild sort of fashion.

Adams soon secured the floor, and to the astonishment and chagrin of all the Americans, he began a tirade against the English as a nation, and said they could never have any place in the affairs of America. As his speech progressed its tone became more and more offensive, and many of those in the cabin deliberately arose and left. Adams loudly denounced the English, and closed with a yarn that he and a party of friends had taken liberties with the British national anthem, "God Save the King," by the substitution of the words "God Save Teddy," at a dinner party shortly before leaving London.

Before he could finish his speech Josiah Collins, a Virginian, took him by the arm and protested against any further remarks such as he had been making. Adams resisted, but several passengers vied with the Virginian and finally squelched the speaker.

Best Medicine in the World for Colic and Diarrhoea.

"I find Chamberlain's Colic, Cholera and Diarrhoea Remedy to be the best remedy in the world," says Mr. C. L. Carter of Skirum, Ala. "I am subject to colic and diarrhoea. Last spring it seemed as though I would die, and I think I would if I hadn't taken Chamberlain's Colic, Cholera and Diarrhoea Remedy. I haven't been troubled with it since until this week, when I had a severe attack and took half a bottle of the twenty-five cent size Chamberlain's Colic, Cholera and Diarrhoea Remedy, and this morning I feel like a new man." For sale by W. F. Creighton & Co., and Gibson and Timberman.

No War With Japan.

Rear Admiral Robley D. Evans, commander-in-chief of the Atlantic fleet, and who will, it is expected, be in command when the great array of battleships rounds Cape Horn for an excursion into the waters of the Pacific, spent sometime at the Brooklyn navy yard yesterday.

The admiral says that no rush orders had been received, and only routine repairs were under way.

Concerning the trip to the Pacific, he said:

"I have received no orders for a cruise. What may be in contemplation I, of course, do not know. It is my business only to do whatever the government may require."

Admiral Evans attaches no more significance to the plans for a practice cruise that will take his great fleet around the Horn and over a cruise of 14,000 miles than have other officers, who viewed it as a part of routine naval operation. It was absurd, he added, to construe the appearance of this formidable fighting force in the territorial waters of our west coast as a demonstration to impress the friendly government of Japan. "It is silly to talk of war with Japan," he said. "Because some toughs wrecked a Japanese restaurant in San Francisco there is no more reason for war with Japan than there would be for one with China if a few hoodlums on the East Side should stone a Chinese laundry."

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart, or The Kidneys. Trouble of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptons only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys, as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for sample and free Book. SATURDAY EVENING, JULY 6, 1907.

RAIL MAKERS claim an extra $5 a ton for rails made according to certain specifications, under which 25 per cent. of the top of the ingot would be cut off, eliminating air bubbles and foreign matter. One would infer from this that the requirement was a new one, adding an element of waste to the process of rail making. But no one supposes that the portion of the ingot cut off would be a total waste. Only a few weeks ago, when the discussion over rail breakings began, one of the engineering periodicals charged that the rail makers were not cutting off as much from the top of the ingots as they had been, and it attributed the increased breakages to this diminution in the amount trimmed off. A change by the rail makers would account for the fact that only within a year or a year and a half have the breakages become numerous enough to attract much attention. The Philadelphia Record says that the steel rail pool had better make good rails for $28 or it may occur to the railroad companies to join other tariff reformers in giving foreign rails a chance to get into this country.

UPON the advice of Attorney General Bonaparte the President has instructed the Secretary of Commerce and Labor, Straus, to have the census bureau make a special enumeration of the proposed state of Oklahoma, including the present territory of Oklahoma and the Indian Territory, for the purpose of determining the distribution of population among the subdivisions into which the State will be divided should the new constitution be approved at the polls. The administration understands that this constitution would be likely to gerrymander the State favorably to the democrats. This is amusing. Why there is not a State in the Union in which the republicans have controlled in which they have not resorted to the gerrymander and they would do worse if they thought it to their advantage.

REPORTS received so far show the number of dead in the United States due to excessive patriotism on the Fourth of July to be forty-five, and the number of injured 2,640. The total fire loss was estimated at $400,000. The dead number twelve more than last year's mortality. From now on the death roll may be expected to increase day by day. The late returns give tetanus as the cause of death in many cases. Two men in Baltimore lost a hand each by the explosion of giantcrackers Thursday. Twice a year (Christmas and Fourth of July) the country has similar gruesome statistics to ponder over, and yet civilized communities continue to tolerate the dangerous use of explosives by thoughtless men and children on these holidays.

DURING the fiscal year just ended 1463 vessels of 510,865 gross tons were built in the United States. This is the greatest tonnage built in any year of the past half century. The record year is 1855, when the ship construction in this country aggregated 583,450 tons, greatly exceeding that of Great Britian. Of the new construction during 1906-07 there were 47 steamers for the Great Lakes (15 of them exceeding 7,000 tons each; and 24 ocean steamers, aggregating nearly 100,000 tons, were built on the coast. There does not seem to be anything the matter with the shipbuilding industry. But the ship lobbyist will reappear as soon as Congress reassembles.

THE traffic managers of the big railroads have a new bugaboo. They say that paid big wages, the employes have grown so prosperous that the demand for vacations for the enjoyment of this increased wealth threatens to interfere with the handling of the interminable heavy traffic. A prominent traffic official of one of the big railroads in discussing this latest phase of the labor situation as it pertains to railroads, says that some of the men will only work a few days in the week, and if this disposition on their part continues, the railroads are certain to be seriously handicapped in handling traffic during the summer months.

AT ROCHESTER, N. Y., yesterday a fine of $15,000 was imposed on the New York Central Railroad Company in the federal court, in accordance with the conviction of the company for failing to file a tariff schedule as required by the interstate commerce law. This fine does the railway company but little harm but it mulcted the stockholders, who are in no way responsible, to the tune of the fifteen thousand. Had a jail penalty been imposed upon the officers of the company, who are responsible for its management or mismanagement, then some good would have been accomplished and the law under which they were fined would never be violated again.

A WASHINGTON woman yesterday began suit against a physician of that city for the recovery of $10,500 damages. She alleges that on December 4, 1905, she suffered a fracture of the thigh bone, and that the doctor undertook to treat her. Plaintiff further alleges that as a result of the physician's treatment the fractured part will never knit; that she has been seriously and permanently injured, and that as a result she has lost considerable money, not being able to follow her daily work. These are gala days for damage suits and if doctors are to be held responsible for not healing their patients a revolution in the practice of medicine and surgery is predicted.

From Washington.

[Correspondende of the Alexandria Gazette.]

Washington, July 6.

In order to get in on the ground floor, should the Interstate Commerce Commission hand down a decision in favor of the city in its famous rate case, the City of Spokane today filed petitions with the Interstate Commerce Commission for over $20,000 reparation on rates charged by the Hill lines indirectly to the city. The rates were on steel from Pittsburg for the construction of the waterworks system of the city, and the amount demanded in reparation is the difference between what Spokane paid and what Seattle would have been charged had the steel been carried to that city.

In Georgia shippers are protesting against the charges the Central of Georgia and other railroads have been making to cover freight, refrigeration and car service for the moving of the peach crop to the north. Complaints were filed with the Interstate Commerce Commission today by several shippers, "on behalf of the fruit growers of the entire State," against these charges, claiming that they are 35 per cent. too high. The Commission is asked to fix the maximum rate for the service to grant reparation.

In honor of the late Maj. Gen. Wm. R. Shafter, U. S. A., who commanded the army of invasion into Cuba during the war with Spain, the War Department has decided to name the new military post on the Kahauiki Military Reservation near Honolulu, Hawaii, Fort Shafter.

Nothing has been learned up to a late hour of the whereabouts of Arthur Kemp, chief clerk of the police department, who has been missing since Wednesday. It is said that his shortage to the police protective fund is about $2,000. An examination of his other accounts show them to be correct. His downfall is attributed to the races, which he persistently played at Benning, Pimlico and around New York.

Despite the fact that the rainy season is now on in the Panama the excavation of the canal is proceeding at a good rate. According to a cable received today from Chief Engineer Goethals there was removed during the month of June a total of 770,957 cubic yards of earth in spite of fourteen inches of rainfall. In the Culebra Cut there was 634,586 cubic yards taken out as compared with only 207,760 cubic yards during the month of June of last year. In the Gatun division there were 75,019 cubic yards removed last month and in the canal prism 81,352 cubic yards.

The Exposition.

Mr. James M. Barr was formally elected director-general of the Jamestown Exposition at a meeting of the board of directors held yesterday.

This followed the recommendation of the special committee appointed to report on the advisability of a change in the management of the exposition. Mr Barr's authority to appoint and remove employes is absolute. This action of the directors was expected, but the future status of the board of governors was in doubt. The board will be retained in an advisory capacity only, it being shorn of all executive authority. Compensation of iss members is yet uncertain, but it will be merely nominal, if anything.

Director-General Barr is also given authority to reorganize the departments of the exposition under as many heads as he may see fit. After the meeting of the directors the stockholders met and ratified the proposition for the placing of a second mortgage on the exposition to secure a second bond issue of $325,000. This was the first bond issue of $400,000, will meet all obligations of the exposition.

The first issue bonds are being held by Norfolk banks to secure creditors of the exposition. One hundred thousand dollars is to be raised immediately for the completion of the exposition in all its details. Unpaid subscriptions to common and preferred stock will be placed to secure this, a trust company being willing to take it as security.

Trouble in Labor Circles.

The decision of the executive board of the International Bricklayers' Union, of Washington, as to whether Local Union No. 1 was justified in going out on a sympathetic strike with the building trades some days ago, has been received by the local union. Contrary to their expectations, the men have been ordered to return to work. It is thought that this order will be ignored by the men, and that they will not return to work until all shops have been unionized, regardless of the ruling of the international body. Should the union vote at its next meeting to stand firm, it is said that a $100 fine will be imposed upon it. Members say that before the fine will be paid the matter will be appealed to the convention, which is superior to the international officers. No action has been taken by either the Building Trades Council or the employers of the last few days, as both parties have been waiting for this decision. It is not known what steps will be pursued by the employers, but the Building Trades Council says it will continue to call strikes wherever an open shop is found.

News of the Day.

One of the jail physicians of Blackwell's Island declares "Abe" Hummel to be a dying man.

President Roosevelt is expected to urge upon Congress the building of a great naval base at Subig Bay, in the Philippines.

That Germany it is said, is to arrange a secret treaty with the United States before the latter takes decisive action about Japan was reported in Berlin.

The recept of new potatoes in Baltimore is increasing rapidly and they are now selling at $1.75 per barrel, old potatoes are sold there at 40 and 45 cents a bushel.

The Russian government is hastening to carry out the recent order for distribution of land to peasants on easy terms, and has ordered the relaxation of measures against the Jew.

A bold attempt to kidnap Paul Peters, the 11 year old son of School Director Wm. C. Peters, of Chester, Pa., was made yesterday by an unknown negro who seriously cut and bruised the boy. The negro made his escape.

Superintendent McQuaide, of the Pittsburg, Pa., police, has the names of five Pittsburgers, who dropped, collectively, $200,000 in the New York gambling house at which D. C. Davis, of Marietta, Ohio, lost $86,000. By failing to get A. T. Nye properly interested the New York gang lost $100,000.

A tidal wave from Lake Michigan swept over the north shore at Chicago shortly after daybreak yesterday, and before receding it had reached a height of eight feet. During its rise, following an alarm by fishermen, who had been routed from their quarters, the residents of Lakeview gathered on the shore and watched in trepidation the oncoming waters.

The Montgomery county, Md., agricultural fair, scheduled for next month, may not be held. It seems certain that the Circuit Court will refuse to grant the management of the fair a license to permit pool selling on the grounds, and President Offutt, of the society, said that he would be in favor of letting the fair go by the board this year if the license be not granted.

Dr. H. K. Hoy, 58 years old, who financed Cobbler John Elmore's ashburning discovery, worried over his financial failures until he committed suicide in his office yesterday by drinking a mixture of laudanum and carbolic acid. He had been interested in oil lands and fast horses. Dr. Hoy was the last person to be convinced that Elmore's invention was not a wonderful thing. Then his friends began to twit him, until soon letters began to pour in from all parts of the country, ridiculing the doctor. He could not stand the ridicule, and for the past two weeks has been unable to sleep.

With his skull fractured and face terribly beaten up, George McGuire, reporter for Bradstreets, was found in a dying condition yesterday in San Francisco. He was taken to the receiving hospital, where he died a few hours later. According to the story told to the police, McGuire alighted from a street car and started to walk to his home, a short distance of three blocks. As he started up the street he was accosted by a couple of men, who, according to a woman who witnessed the affair, asked McGuire if he had ridden on the car. Upon his replying in the affirmative, he was set upon by the men and beaten into unconsciousness. The police have no clews as to his assailants.

Judge Charles Swayne, of the United States Court for the Northern district of Florida, died at University of PennsylvaniaHospital in Philadelphia yesterday afternoon aged 65 years. Judge Swayne's name became familiar to the public a year or two ago through an attempt to impeach him for "high crimes and misdemeanors." His trial took place in the United States Senate toward the close of the first session of the Fifty-ninth Congress and was the first impeachment proceeding in that body since the trial of Secretary of War Belknap, under the Grant administrtion. The trial resulted in his acquittal by a vote which was almost strictly along party lines. The original charges against Judge Swayne were made by Representative Lamar of Florida.

Experience of Excursionists.

Twenty coach loads of Richmond people, including men, women and children who went to West Point Thursday morning to spend the Fourth of July at the Beach Park resort, got back to Richmond at 4:10 o'clock yesterday morning. Three trains carried people to West Point Thursday from Richmond and points along the route.

One train of 15 coaches left West Point on the return at 7:30 o'clock Thursday night. Another was scheduled to leave for Richmond at 10:30. The second train did not leave until 2 o'clock yesterday morning. It was not there, and had to be sent down from Richmond.

The night was quite cool, and when it was found that the second train would be considerably delayed a number of excursionists, in desperation, attacked fences and started large bonfires. Around these men, women and children were huddled. In a number of instances the men give up their coats to the women and children, who wore, in a majority of cases, only their thin summer clothing.

The railroad claims that too many people were taken on at way stations Thursday morning, and that the company's plans were upset. The company also claims that more people could have come on the earlier train. The fact seems to remain, however, that the company failed to provide proper accommodations for the return of those taken from Richmond in the morning.

To Determine Mrs. Eddy's Sanity.

Concord, N. H., July 6.—Two of the most noted alienists in New England were appointed today to assist Judge Edgar Aldrich in determining the competency and sanity of Mrs. Mary Baker G. Eddy. At the request of Judge Aldrich, who was recently named master to inquire into Mrs. Eddy's condition, as the result of the suit to force the managers of her property to an accounting, Judge Chamberlin decided that the inquest would be more authoritative if conducted from a medical as well as a legal standpoint. For this reason he named today as addition members of the commission Dr. G. Alden Bicomer, of Providence, R. I. It was on condition that he have this medical aid that Judge Aldrich accepted the appointment as master in the Eddy case.

Virginia News.

Mrs. Lucy B. Carter, 82 years old, widow of M. F. Carter, of Fauquier, died at Norfolk yesterday. The body will be sent to Warrenton for burial.

A report is circulated that the C. & O. R. R. Co., contemplates a reduction in wages of employes. This follows a cessation of much work that has been under way along the line of that road.

Mrs. Ida Berkeley, widow of William Berkeley, Confederate veteran and for many years member of the faculty of the Virginia School for the Deaf and Blind, died at Staunton yesterday, leaving two daughters and a son.

The Order of the Descendants of the Signers of the Declaration of Independence was temporarily organized at Norfolk yesterday by the election of William Shealds McKean, of Washington, president. The "Descendants," of which there were 200 in attendance, adjourned to meet in Norfolk again in October, 1908.

The State Library Board will meet in Richmond tonight when it is believed that Librarian Kennedy will be ousted Among the candidates for the position are J. G. Hankins, of Halifax; Lawrence Washington, of Alexandria; John S. Patton, of Charlottesville; Dr. J. A. C. Chandler, of Richmond, and Dr. H. R. McIlwaine, of Hampden-Sidney College.

C. G. Hastings and Joseph Brashear, privates of the First Kentucky Regiment, charged with inciting to riot on the Jamestown Exposition "Warpath" Wednesday night, were yesterday found guilty of disorderly conduct, fined $1 and costs each, and, after payment, turned over to their commanding officer to be further disciplined according to military regulations.

Ellis R. Holsinger, of Nokesville, has been adjudged insane by a commission of lunacy. On Wednesday night Holsinger conceived the idea that he had received an order from Armour and Company, of Chicago, for five car loads of ice cream. He aroused at a late hour every milk shipper and farmer in the community and made offers for their entire output of milk for the next thirty days.

The State Corporation Commission recently started an investigation of the railroad company, which grew out of complaint of bad service &c. and, without reaching a decision, retained the case on the docket for such future orders as might be necessary to enter from time to time. The commission is ready to take up the matter as soon as the complaints, now on their way to Richmond, are received.

The twenty-eighth annual horse show and steeple chase of the Blue Ridge Hunt Club, held at Carter Hall Grove, near Millwood, Clarke county, Thursday, drew a large crowd of visitors and turfman from that section. Thirteen different classes were shown. The ladies' single driving class was won by Mrs. Stuart H. Edmonds, of Winchester, who drove her stylish mare, Airs. Roy Mitchell, of Clarke county, won the gentlemen's driving class.

TO INVESTIGATE THE TROLLY ACCIDENT.

Mr. R. C. L. Moncure, an attorney for a number of patrons of the W., A. & F. C. railroad, who were injured in Wednesday accident, has written to the commission asking that an investigation be instituted at an early date.

He also requests that the commission hold a session at the Alexandria County Court House, so that all persons interested who have occasion to use the road daily may have an opportunity to be heard,

A meeting of the officers of the railroad company was held yesterday afternoon, and suggestions for improvements were made to be laid before the board of directors at a special meeting to be held in the near future. Vice President Hubbell, general manager of the railroad, stated that probably the only change to be made in the signal system of the company would be to substitute written orders in place of oral instruction.

Col. Joseph E. Willard, member of the State Corporation Commission, was asked last night in Richmond what action the commission was liable to take relative to the collision on Wednesday, at which time George T. Waring, of Ballston, lost his life.

Col. Willard replied that immediately after the commission came into knowledge that there had been an accident on the road the officials of the Washington, Arlington and Falls Church line were requested by telegraph to forward to the commission a report of the accident and its causes. The commission will, Col. Willard said, await the receipt of this report before deciding its action.

It is probable, however, in view of the fact that the coroner's jury which investigated the accident blamed the railroad for the death of Waring, that an investigation will be made by the commission.

Parents Bear Girl's Corpse Across Desert.

San Bernardino, Cal., July 6.—With the corpse of their only daughter in a wagon, Mr. and Mrs. Joseph Lord, pioneers, traveled across the desert ninety-five miles to this city to bury their child in the pioneer burial plot. For two days not a soul was met on the long, sad journey. When they reached here, having been constantly on the road with the exception of a two hours' rest beside a desert spring, both were exhausted. The Lords live at Old Woman Springs, sixty-five miles from Victorville. Their daughter died suddenly of paralysis. Her dying request was to be buried in San Bernardino, and, although the parents realized it would be days before the remains could be brought here, they set about the task. In the bottom of a wagon a strip of canvas was stretched and was slightly elevated by sticks, leaving both sides open for the air to circulate. On this canvas the corpse was laid, and with just enough water and provisions to see them through, the parents made their sad trip.

"My little daughter had a burn on her knee. I applied Chamberlain's Salve and it healed beautifully." This salve allays the pain of a burn almost instantly. It is for sale by W. F. Creighton & Co. and Gibson & Timberman.

Today's Telegraphic News.

Mr. Rockefeller on the Stand.

Chicago, July 6.—When John D. Rockefeller appears in court today it is believed he will tell Judge Landis that he is unable, except in a general way, to furnish the information the federal court desires in order to render final judgment upon the Standard Oil Company of Indiana, convicted of criminal discrimination in oil shipments. This, however, will not satisfy the court, as it is contemplated to propound a number of questions to him.

To a Publisher's Press reporter who got close to Mr. Rockefeller today the oil king was non-committal when asked if he was prepared to bare all the secrets of the Standard Oil Company. "I shall testify along the lines my attorneys have advised me," said Mr. Rockefeller. "This is no place for an interview," added Mr. Rockefeller.

Promptly at 10 o'clock Rockefeller and the lesser lights walked across the street to the Federal building. There a terrible jam of people in the corridors struggled to gain an entrance to the courtroom. It almost reached the proportions of a riot. Twenty policemen fought the mob back. The Rockefeller party was taken into the room through a private entrance and escaped the mob.

A number of questions were propounded to Mr. Rockefeller after he took the stand, and there was considerable crossfiring among the lawyers. Among them the following:

"Mr. Rockefeller, what were the dividends of the Standard Oil Company of New Jersey in 1904 and 1905?"

"I can't tell exactly."

"Do you know the net earnings in those two years?"

"I do not. Perhaps some of the gentlemen in the room—no doubt some of the gentlemen in the room can answer that question," said witness Rockefeller as he swept his arm toward the direction of the additional witnesses sitting nearby.

"Mr. Rockefeller, are you familiar with the circumstances surrounding the organization of the Standard Oil Company of New Jersey?"

The court continuing: "I don't care for that."

Mr. Rockefeller subsequently arose from his seat and looked at his lawyers. The court said: "That's all," and the oil king returned to the seat among the lawyers and other officials of the Standard.

Mr. C. M. Pratt, secretary of the Standard Oil Company, of New Jersey, was then called to the stand.

John D. Rockefeller and associates having completed their testimony, were excused and the case continued until Monday without the passing of sentence when the defense will be permitted to introduce testimony in an effort to show that the Standard Oil Company of New Jersey does not control nor own the Standard Oil Company of Indiana.

If the defense volunteers to put Rockefeller on the stand Monday it may do so. This is hardly probably, however. The oil king's friends refuse to discuss his plans as to his further movements.

Runyan, the Absconder.

New York, July 6.—Absconding Teller Chester B. Runyan, of the Windsor Trust Company, will be arraigned in the Tombs police court today charged with the theft of $96,317 which disappeared from the concern's vaults when he vanished from his office last Saturday afternoon. While Runyan and Mrs. Carter are safely in the authorities hands, where is $25,000 or so, of the money? The company's detectives have made a diligent search of the flat in which Runyan was found, but not a cent has turned up and Runyan is held, of course, on a grand larceny charge. From a most affectionate couple Runyan and Mrs. Carter have become bitter enemies. Each accused the other of having hidden the missing money.

The police found $54,410 in his valise. For the few odd hundreds he can't account. Mrs. Carter says Runyan gave her only $5,000, and that she handed this back when she learned his identity. She did not know his name until she recognized him from pictures in the newspapers. Her story is that he threatened to kill her when she told him of her discovery and that she gave him up in fear for her life.

Runyan and Mrs. Carter were brought from the west 125th station to police headquarters together. They did not speak to one another during the trip through the subway and Mrs. Carter declared, at headquarters, that she wouldn't "stoop to talk to a man who'd get her into such trouble."

Runyan held his handkerchief before his face to conceal his features from newspaper photographers. Mrs. Carter showed no such objection.

Both will be photographed by the police and Runyan's measurement taken before they are arraigned in court.

Mrs. Carter supplemented her earlier statements to the police with a story to the effect that she spent $700 given her by Runyan before she knew the money was stolen. When she learned the truth, she adds, she hesitated whether to notify the police or Mrs. Runyan, but decided in favor of the former through fear of violence at the fugitive's hands.

She professes to have had some money of her own in the bank before she met Runyan and is fearful of its confiscation by the police on the pretense that it is the trust company's property. Her home, she says, was formerly in Richmond, Va.

Runyan, handcuffed to Detective Marron, sat at headquarters with bowed head and refused even to notice questioners.

Attempted Suicide.

Portland, Ore., July 6.—Brooding over his arrest on a charge of fraud for alleged fakering in the automobile meet Thursday, Barney Oldfield, the automobile speed marvel, attempted to commit suicide early this morning. Oldfield attempted to leap from a window of the Portland Hotel. He was restrained only by the united efforts of his wife and a detective. The excited man smashed out a window with his bare hands which were badly cut. Mrs. Oldfield grasped her husbands clothing and held on until help came.

The civic strike in the South of France is gradually going to pieces, many mayors and municipal councils having withdrawn their resignations.

The British Navy.

London, July 6.—England's navy is demoralized. Skeltonized crews manning huge vessels with insufficiently trained men and officers who are book-taught are given as the reasons for the alarming state of affairs which is pictured today in a sensational article in the Spectator. The fact that the Spectator's article is believed to have been inspired by or at least to echo the views of Admiral Lord Beresford, coupled with the attention that has been recently directed by the public press to activity of the American navy, has caused a sensation throughout the British empire. The Spectator described the British fleet as a fortuitous concourse of naval atoms, and adds: "Our naval position today is such that if there should be a sudden declaration of war against Germany the situation would be one of grave peril."

Numerous accidents recently to warships offer a basis for the charges of inefficiency. Since July, 1906, ten battleships, two armored cruisers, eight unarmored cruisers, five gunboats, twenty-two tordedo boats, and three submarines have met with disasters. Most of the accidents were collisions, due to the culpable negligence or inefficiency of officers and crews.

The policy of the admiralty in regulating warships to harbor duty alone, keeping only small crews aboard, in order to cut down naval expenditures, is blamed for the inefficiency. Neither officers nor men get the proper training, it is claimed.

The belief has been growing steadily, too, that promotion goes by favor, and the navy, England's reliance for defence, is drifting into the same state of consistency which has ruled in the army. Englishmen have loath to believe this but at last recognize that the boasted British navy, glorified as the greatest in the world, is far inferior to its paper pretentions.

So far the Spectator has been the paper of independent position and it has offered a bitter pill for the public to swallow.

The Haywood Trial.

Boise, Idaho, July 6.—The Haywood trial has been delayed today. Depositions on their way from San Francisco by mail failed to arrive and Attorney Darrow, for the defense, sought a recess until Monday. The jurors groaned, but Judge Wood declared the request reasonable, and the court room is empty.

The depositions, fifteen in number, contradict Harry Orchard's story that he dynamited the Linforth flats with a bomb, either as the agent of the miners' federation or for personal reasons. It is maintained that the explosion was due to a gas leak. The testimony is by witnesses whom it was impossible to bring to Boise.

Attorneys for both prosecution and defense are preparing motions to be filed Monday and Tuesday, asking that most of one another's testimony be stricken out as improper. This contest will be fought out on technical legal grounds and will be one of the bitterest of the trial, effecting, as it does, the most vital issues of the case. Moyer and Haywood will be witnesses for the defense when court reconvenes Monday. The will be the last of the Haywood witnesses and the prosecution will next open in rebuttal.

Rioting in Hungary.

Vienna, July 6.—Serious rioting has occurred throughout Croatia as a result of the action of the Hungarian Parliament in making Magyar the official language to be used on the Croatian railway systems. It is feared Hungary and its allied kingdom, Croatia, may become involved in a dangerous quarrel. Threats of upholding their rights with arms are even made by the Croasians.

Notable demonstrations against Hungary have occurred in various Croatian towns. The forty Croatian deputies who marched out of the lower house of Parliament at Budapest when the railroad bill passed having been making a tour of their native country, making speeches. Violence has generally attended these demonstrations, Hungarians officers being the objects of attack.

At Nova Capella there was a hot fight between rioters and Gendarmes. Angry croatins attacked the railway station intending to expel the Hungarian officials. The latter barricaded themselves and held the place until Gendarmes came to their rescue.

The Hague Conferedce.

The Hague, July 6.—There is slight chance, from present indications for the American proposal to exempt all private property from capture at sea being adopted by the international peace conference. Russia, England, Colombia and the Argentine Republic have united to oppose the proposition. Only Italy, Greece, Brazil, the Netherlands and Norway have supported it.

Wants Rockefeller Jailed.

Warsaw, Ind., July 6.—At a banquet given in his honor, William Jennings Bryan said: "Send John D. Rockefeller and a dozen other trust magnates to prison for a long term of years and one of the most vital questions before the country will be solved." He said that "the President is compiling my future speeches for me."

The New York Stock Market.

New York, July 6—The stock market opened with fractional gains recorded in a majority of shares. The market was broader and stronger all through the first hour than it has been since the upward movement started. Prices made gains ranging from 1 to over 2 points.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

SCHOOL BOARD.

At the monthly meeting of the City School Board held last night there were present: Capt. Herbert Bryant, chairman, and Messrs. Thompson, Yates, Stabler, Thomson, Bradshaw, Carne, Carter, and the superintendent.

Mr. Yates from the committee on school houses and furniture reported that the janitor's house at Seaton building was in such bad condition that the janitor had to move and had rented a house adjoining; the committee had not ordered repairs, preferring to await the action of the board. He also reported that one of the floors at Seaton building and the back porch of the building needed repairs and as the janitor of the building had offered to make the necessary repairs for $5 he had ordered the work to be done. No other repairs had been made and the committee awaited the action of the board in reference to the annual repairs.

Mr. Stabler suggested that the committee make a summary of what repairs were needed, and submit a report to the board.

Mr. Yates stated that the roof on Hallowell building was unsafe and needed renewing and that as a sanitary measure the walls of Washington building should be calcimined and the wainscoting and doors varnished; no other extensive repairs were needed; he thought the furnaces in Washington building were in good condition and asked that the committee be empowered to advertise for bids for the more expensive work.

Mr. Carter reported that the roof and flues of Peabody building needed repairs.

The committee was authorized to have the necessary repairs made to the several buildings, the work to be given to the lowest reliable bidders and the sum of $500, or as much thereof as necessary, was appropriated for this purpose.

Several bills for repairs, &c., were ordered to be paid.

The superintendent reported that in accordance with the order of the board the schools had been closed for the summer vacation in order, beginning on June 18th and ending on June 21st.

The board then adjourned.

SUICIDE OF GEO. W. STEARNS.

Mr. George W. Stearns, a well-known resident, committed suicide early last night at his home, 102 south St. Asaph street, by drinking an ounce of chloroform. He was forty-six years old and is survived by his wife and three sons. About 5 o'clock Mr. Stearns went to his home and told his wife he was going to lie down. Shortly after 8 o'clock Mrs. Stearns heard her husband fall out of bed, and when she reached the room he was writhing in agony on the floor. She gave the alarm, and in a short while Dr. A. A. Rittenour arrived, but Mr. Stearns was past relief. Mr. Stearns had suffered from Bright's disease several years, and as a result he lost the sight of one eye and the other was seriously impaired. He was a member of Alexandria Council Junior Order of United Americans. Mr. Stearns was a son of the late William Stearns, who in by-gone years was an employee at Green's furniture factory on the southeast corner of Prince and Fairfax streets. The deceased had for several years past conducted an oyster house on south St. Asaph street. He had, it is said, attempted to commit suicide some time ago.

Mr. Stearns was a member of Alexandria Council, J. O. U. A., and of Oriental Court of that order.

ACCIDENTS.

Edmund Pettit, a civil war veteran, who resides at the soldiers' home at Hampton, Va., was knocked down by a wagon and painfully hurt at the foot of King street yesterday afternoon. Both hands were cut, and he received a deep gash across his cheek. He was removed to the Alexandria Hospital.

Mr. Harry Head slipped as he was about to mount a moving wagon yesterday afternoon and one of the wheels passed over his foot and badly mashed several of his toes.

Mr. Taylor, living at The Plains, Fauquier county, was brought to the Alexandria Hospital today suffering from a fractured hip. The fracture was due to a fall.

FINED FOR ASSAULT.

The vicinity of Shiloh Church, upper Duke street, early last night was not the scene of rest and tranquility, as the name implies, in consequence of a family feud between colored people which culminated in a fight. A young colored woman named Early incurred the resentment of a colored woman named Pines and her daughter Ida by the injudicious bandying of words. This occurred about four o'clock in the afternoon, and at dark the relations between the two factions had been strained to such a point that the Pines woman and her daughter, armed with a stick, a gun barrel and a pitch fork, appeared in front of the church ready for business. The Earlys had in the meantime also appeared. The Pines woman and her daughter made a bellicose movement and a female neighbor had about all she could do to prevent the exasperated assailants from revenging themselves in a cruel manner upon their adversaries. The Earlys fell back in order and were chased by the Pines faction. The Earlys then procured a warrant for the arrest of their assailants, and later Officer Roberts took them in custody. The accused were brought into the Police Court this morning. The Earlys were represented by Mr. Robinson Moncure and the Pines women by Mr. L. H. Machen. The evidence portrayed family feuds of long standing and after patiently listening to the volubility of all the parties concerned, the court imposed a fine of $2.50 on Henrietta Pines and her daughter Ida.

NARROW ESCAPE.

William Connors, forty years old, who lives near Pohick, Fairfax county, had a terrible experience and a narrow escape from death yesterday afternoon under a freight train near Pohick station, on the Richmond, Fredericksburg and Potomac Railway. While he was lying close to the ties, between the rails, a train of several cars, in addition to the engine, passed over his body. While under the engine he was dragged several yards, but was picked up by the trainmen, who found that he had escaped fatal injury. Connors was placed on a train and bought to the Alexandria Hospital, where he was attended by Dr. William M. Smith. While the man was badly cut and bruised, his worse hurt was a facture of the left leg. Connors is employed by the railway to look after the water tank at Pohick station. He was at work on a siding, his attention being directed to a train on the main track, when he was caught and thrown between the rails by a freight train which was backing on the siding.

COLORED MAN ROBBED.

Joseph Green, colored, was partially stripped and robbed in the extreme northwestern section of the city on Thursday. Green was on the corner of King and West street in a drunken condition, when he was taken in charge by some acquaintances and conducted several squares away where his pantaloons and other garments were removed and carried off, together with $11 which he had upon his person. When Green awoke he found himself in his underclothes and in that plight made his way to his home. The men who left King and West streets with him are said to be known, but, for some reason, no arrests have been made.

GARBAGE IN STREETS.

Among the cases before the Police Court this morning was that of a resident of the western section of the city who had been cited to appear to answer the charge of throwing a bundle of crab shells into the street. A nominal fine was assessed. It is hoped that all persons who thoughtlessly throw offal or garbage on public thoroughfares may take heed, and observe the sanitary laws of the city. This is essential, especially during the heated term. The law is violated in many instances, and if more cases similar to the above were brought into the Police Court they would tend to make people more careful.

POLICE COURT.

[Justice L. H. Thompson presiding.]

The following cases were disposed of this morning:

James Griffin, charged with being drunk in the street, was sent to jail for ten days.

William Padgett, white, and Edward Elzie, colored, charged with fighting, were fined $5 each.

Henrietta and Ida Pines, colored, charged with disorderly conduct, were fined $2.50 each.

A resident, charged with throwing garbage into the street, was fined $1.

CORRECTION.

Rev. Richard L. Carne requests us to publish the following:

"The Gazette was in error as to who was Father of the Alexandria Fire Department, in its article of the 3d inst, on the subject. It overlooked the fact that Mr. James Javins was for more than nine years a torchbearer in the Friendship Fire Company, which made him an active member. He is also several years the senior of the writer who is thus nearly seventeen years younger, so that he willingly takes the second place below his valued and worthy friend."

UNLICENSED DOGS.

Attention is often called to the fact that a large percentage of the dogs harbored in this city are minus medals. In many instances such curs are owned or harbored by well-known people. The Auditor has at times made out lists and turned them over to the police in order to compel dog-owners to come forward and pay taxes on their canines, but notwithstanding all such efforts the unlicensed brutes still roam the streets ad libitum. People who pay promptly naturally demand that the law be enforced on all owners of dogs.

COMPANY GIVES BOND.

Acting Secretary Oliver of the War Department has received from Mr. Clarence P. King, president of the Washington, Alexandria and Mount Vernon Railway Company, a bond in the sum of $70,000, with the American Bonding Company of Baltimore as surety, to insure the compliance by the railway company of the requirements of the War Department that a standard underground electric system shall be installed on the Highway bridge and approaches by December 1 next at the latest.

Miss Ella Keene left this morning for Clifton, Va., to spend the summer.

CONGRESSIONAL COMMITTEE.

The Eighth Congressional democratic committee was to have met here this morning at 10 o'clock to declare Mr. C. C Carlin the nominee of the party, he having won at the primary election held on June 19th, but up to 3 o'clock this evening the committee had not met. No quorum having appeared.

Mr. Greenville Gaines, of Warrenton, and Mr. G. L. Boothe, of Alexandria, were the only two committeemen in the city at 3 o'clock, when it was learned that the train from the South having on board Mr. George S. Shackleford, of Orange, and Mr. Raleigh Green, of Culpeper, was an hour and a half late. Mr. Lyon, of Prince William, it was learned was in Washington and would come here when the other committeemen reached this city.

It is understood that the only business of the committee, if it does meet this evening, will be to declare Mr. Carlin the nominee of the party.

The committee met a 4 o'clock and declared Mr. Carlin the nominee.

No one appeared to give any evidence that improper methods were used at the primary.

PRISONER DISCHARGED.

James Morrison, who claims to live in Washington, and who was charged with robbing two slot machines on the river steamer Trenton a few days ago, was brought before U. S. Commissioner Garnett today and for want of sufficient evidence was discharged and turned over to his wife. It is thought that the man is of unsound mind.

SATURDAY EVENING, JULY 6, 1907.

Young Woman Burned to Death.

Miss Fern Adams, of Auburn, Neb., was burned to death in a buggy in that place yesterday. She was a daughter of Amos J. Adams, a well-known and wealthy citizen of Auburn, who at one time lived in Wicomico county, Maryland, near Salisbury. Miss Adams had driven to a fire which destroyed the Mellott home, near her own, and was sitting in an open buggy, watching the flames, when a live ember fell upon her lingerie waist. Instantly the waist ignited and before assistance reached her the young lady was in flames. All her clothing was destroyed and she herself was literally roasted alive in sight of scores of people who had gathered to witness the fire. Men who were near her when her clothing ignited seemed to become paralized from fear at sight of the flames that enveloped her, and none of them made an effort to rescue her until it was too late.

The Doctor Away from Home when Most Needed.

People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like cramp colic and cholera morbus require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic, Cholera and Dirrahoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. For sale by W. F. Creighton & Co. and Gibson & Timberman.

Runyan Captured.

Chester B. Runyan, fugitive paying teller of the Windsor Trust Company in New York, was arrested by detectives yesterday in that city. The suitcase in which he carried off his loot was recovered with $53,410 in tissue-covered, orginal bundles. Of the rest of the missing $96,317 Runyan says he lost $16,000 in stock speculation before he disappeared, and had given Mrs. Carter (a woman he met on the night of his disappearance) $15,000 odd. The other $10,000 the woman must have stolen, he thinks.

Two detectives entered the house where Runyan was seated. He was pointing a revolver at the detectives, but his hands were wobbly and the pair kept on advancing with their gun pointed, too. "We've got you, Runyan. Better chuck the gun," said one of them, to which Runyan replied: "It's all up then," and quietly laid his pistol on the table.

Cured of Lung Trouble.

"It is now eleven years since I had a narrow escape from consumption," writes C. O. Floyd, a leading business man of Kershaw, S. C. "I had run down in weight to 135 pounds, and coughing was constant, both by day and by night. Finally I began taking Dr. King's New Discovery, and continued this for about six months, when my cough and lung trouble were entirely gone and I was restored to my normal weight, 170 pounds." Thousands of persons are healed every year. Guaranteed at E. S. Leadbeater & Son's drug store.

Charged with Embezzlement.

Major Richard Sylvester, superintendent of the metropolitan police department of Washington, announced yesterday that J. Arthur Kemp, chief clerk, also property clerk of the police department, has disappeared, and that from a brief examination of the books of the clerk it appears that he is short in his accounts about $2,000 or more. A warrant has been issued for Kemp's arrest.

Rumor had it that Kemp had been playing the races and that he had become involved financially. It was suggested that he had lost money on the ponies, and that in an effort to regain the lost money he had gone deeper into debt.

Mr. Kemp is a native of Maryland, having been born at Elysville October 21, 1862
